

## Internal Ceramic GNSS Patch Antenna

- Embedded passive antennas for GNSS
- Compact.
- Technology: GPS L1/Beidou B1
- Pin type
- Applications in navigation, automotive, tracking, monitoring, security etc.

Item	Performance Specifications
Center Frequency	1575MHz
Return Loss @ F0	≤-15 dB
Polarization	RHCP
Peak Gain @ Zenith	-5.0 dBic
Impedance	50 Ω
Frequency Temperature Coefficient	±20 ppm/°C
Operation Temperature Range	-40 ~ +85°C

## S-parameter

## Antenna Mechanical Drawing
